#ComingTogether - The iMaginers

Verse 1

G C
If this is too late I'm sorry I guess
C D
But I've a few thing to get off my chest
G C
I thought myself once had laid most to rest
C D
Had made up my bed had no time to protest
G C
Well my foots down gloves off challenge met
C D
Meet my rage rants and regrets
G C
All being borne to each other's paths
C D
We're sure to suffer for our pasts
G C
Those who bet the veil would last
C D
Dove head first no questions asked
G C
They'll take us with them if we let
C D
Them keep steering this sinking ship
G C
When there's no ore get off the boat
C D
Why learn to swim when we can float
G C
This apocalypse might still be fun
C D
If we're together when it comes

Chorus

G C
Dear god,
D G
Together when it comes
C G
Oh god
D G
Together we must come

Verse 2

We're all sick to death of hearing the same
Names acclaimed account of reputation
Maybe it's 'bout time we move on from this
Step forward into that future we'd wished
Our history books would be better off burned
Most merely made of not much more than words
Which if by now you hadn't hear
Only need due time to come out absurd
Can our language lead us to where it went wrong
Like pinpointing problems can turn them around
Sometimes the search is what's leading us from
The place we once perceived the destination
Now as far back behind as we once were in front
Got spun around there feeling sad lost and dumb
Well just take a deep breath try and follow along
Cos wherever it is least together we'll come

Chorus

Dear god
Together we will come
Oh god
Together we must come

Verse 1

G C
See when I climb I cannot breathe
G C
Your jealousy it's killing me
G C
Your distaste for my success
G C
Your shaming of me when I vent
G C
Too many times I've been dismissed
G C
Tow the line still interrupted
G C
I wish I had your confidence
G C
Wish you had my perspective
G C
Oh what you could do with it
G C
Seeing as you're the best there is
G C
All others far too legit
G C
You're just my type my only fit

G C G C
G C D

Verse 2

I wish that you could see my pain
I wish I could communicate
I wish you would not point your lane
I wish you wouldn't shout again
I wish for the next time I cried
For my man not to run and hide
A coward in the face of fear
Least we only run circles here
Means everything comes up again
Evermore second chances
So act out as much as you like
Could be my fix my only type

G C G C
G C D

Verse 3

I like you know what I meant
So don't leave me on the fence
Why hold me only in suspense
We're thrill seekers we've no defense

Floating boundless all around us
Maybe then we would of found us
Oh! I guess we'll never know

Late Bloomers by Dr. Dew-Little & the NDE's

Verse 1

G

You don't show your face anymore

C

Long been swept up off your floor

G

Wiped all traces from your door

C

Never felt so unignored

G

Flea from the very prospect

C

If ever having to regret

G

Me Being in the same room you step

C

How much clearer could it get

Chorus

D C Em C G

I know you won't miss me when I'm gone

Verse 2

You keep me out by staying within

A state of mind or comfort in

Being left behind by brethren

Who've long used up their oxygen

Took more than you could sustain

Just like you do everything

Now you grasp for answers when

You've neglected the questioning

Chorus

I know you won't miss me when I'm gone

But maybe should have let me hang around

Surprised someday at what you could have found

We late bloomers we'll blossom in the ground

Verse 3

Oh, how will we know

Who's in control?

What if we don't?

Once was over the moon

Now waiting to bloom

I've faith it'll be soon

Chorus

I know you won't miss me when I'm gone

I know you won't miss me when I'm gone

I know you won't miss me when I'm gone

We late bloomers we'll blossom in the ground
